

Moodle Reports

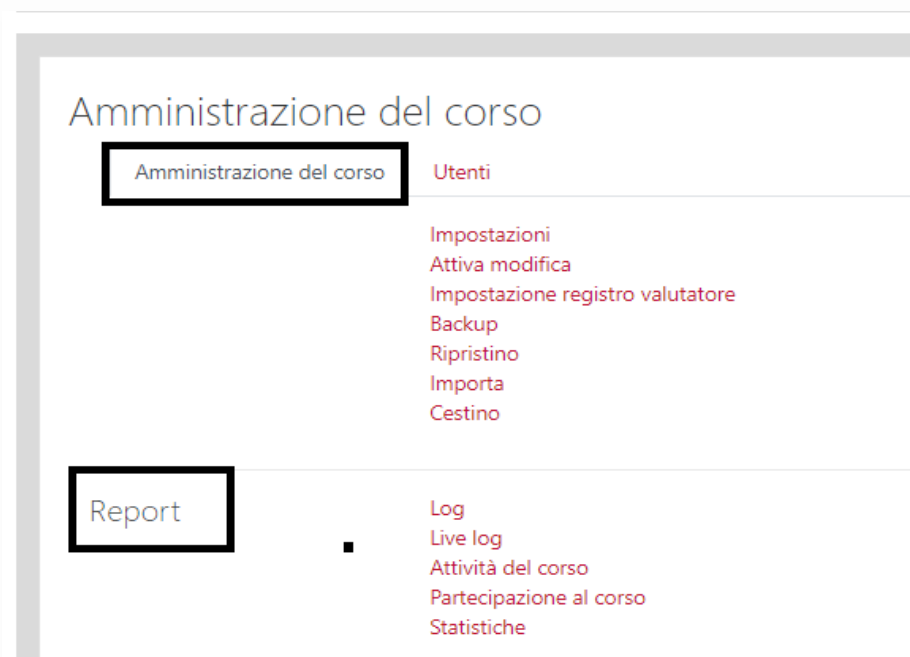

Moodle gives the instructors access to several types of report that enable them to understand what the participants of a course may or may not be doing, and when.

We will concentrate in particular on a few reports that are commonly considered the most useful.

By clicking on the settings button on the home page of the course in the top right corner, then on Altro [More], the Report tab is accessed.

The Amministrazione del corso [Course administration] panel contains the Report section, which enables the instructor to select the type of report that is of interest:

**UNIVERSITÀ
DI TRENTO**

**Direzione
Didattica e Servizi agli Studenti**

MAIN TYPES OF REPORT

1. COURSE ACTIVITY

The instructor can run a temporal filter and the various activities will be shown (e.g: discussion forum, resources such as files or videos etc.) including:

- related viewing history
- the number of users
- the most recent access history

**UNIVERSITÀ
DI TRENTO**

**Direzione
Didattica e Servizi agli Studenti**

2. COURSE PARTICIPATION

This section is particularly useful to understand who has taken part or not taken part in specific course activities. For example, you can select:

- a resource that you intend to monitor (a file or video)
- a specific time-frame
- a student user
- Visualizza azioni [View actions].

The screenshot shows a web interface for course participation. A dropdown menu is open, listing various resources under categories like 'Forum', 'Kaltura Video Resource', and 'File'. The 'Video (prima parte)' option is highlighted in blue. Below the menu, there are several controls: 'Modulo attività' with a 'Scegli...' dropdown, 'Guarda dietro' with a '2 settimane' dropdown, and 'Visualizza solo' with a 'Vai' button circled in red. A blue arrow points to the 'Vai' button. Another blue arrow points to the 'Studente' dropdown, which is also circled in blue. A third blue arrow points to the 'Visualizza' dropdown. The 'Visualizza azioni' button is also visible.

Click on Vai [Go] to obtain a list of all the students on the course and the data related to the viewing history of a selected resource:

43 Studente

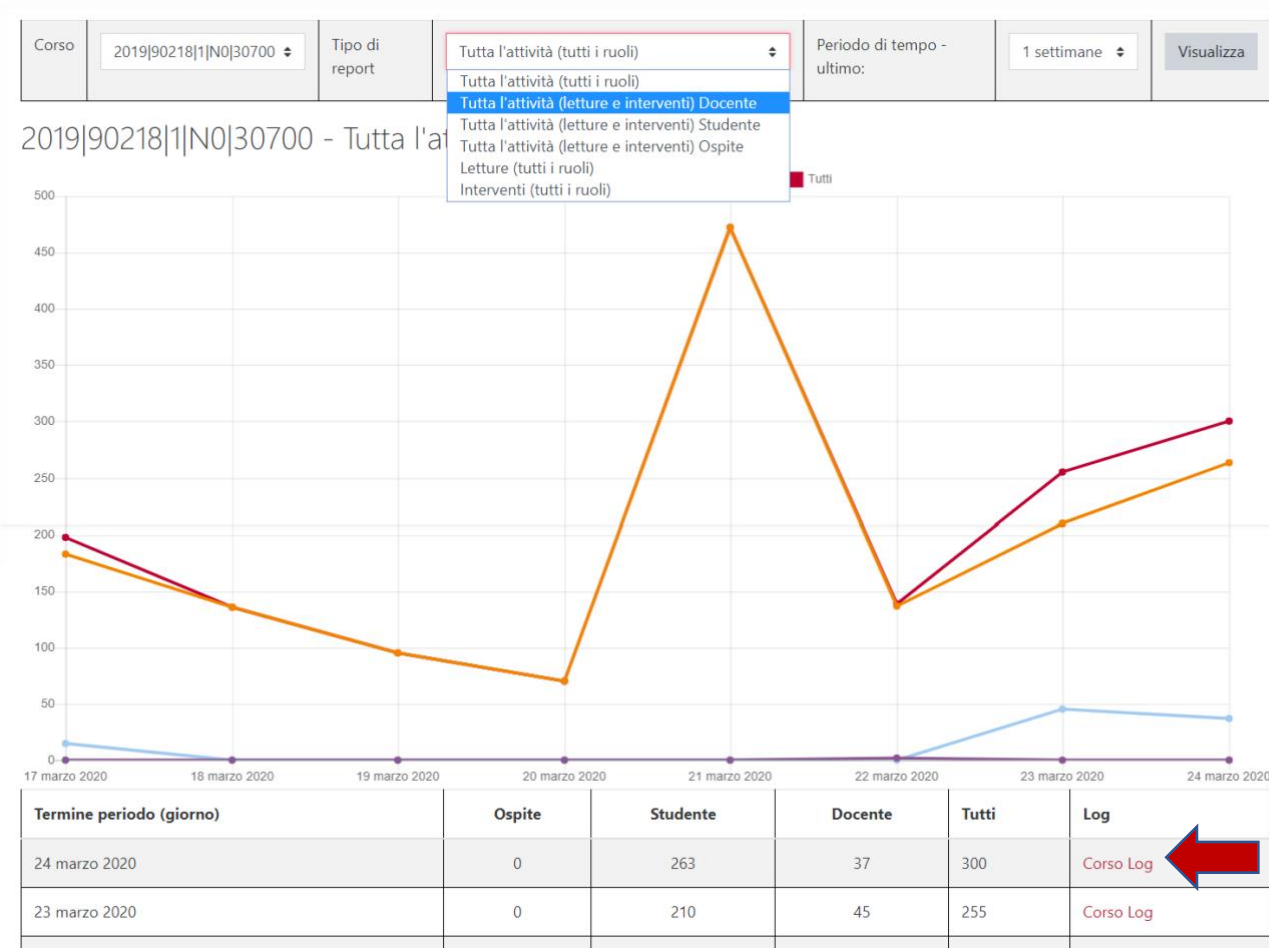

Nome / Cognome ▾	Visualizza	Seleziona
xxx	No	<input type="checkbox"/>
xxx	Sì (3)	<input type="checkbox"/>
xxx	No	<input type="checkbox"/>
xxx	No	<input type="checkbox"/>
xxx	No	<input type="checkbox"/>
xxx	No	<input type="checkbox"/>
xxx	No	<input type="checkbox"/>
xxx	No	<input type="checkbox"/>
xxx	No	<input type="checkbox"/>
xxx	No	<input type="checkbox"/>
xxx	No	<input type="checkbox"/>

N.B. Alternatively to the azione Visualizza (View action) option, it is possible to select the **Scrittura (Writing)** option (see for example: sending a message to a forum).

3. STATISTICS

This section generates an overall view, including graphic information, of the activities (in particular Reading and/or participation) utilized by the different types of course user in a specified time frame:

By clicking on the Log column related to a specific day, further data can be obtained.
